Trials Procedures

RULES & MEMBERSHIP REQUIREMENTS

USA Swimming Rules and Regulations will govern the conduct of these Trials. It shall be the swimmers' and coaches' responsibility to acquaint themselves with all of the information contained in this meet information book. No U.S. swimmer will be permitted to compete unless he/she is a member as provided in Article 302. Any U.S. swimmer entered in the meet must be certified by a USA Swimming member-coach as being proficient in performing a racing start. It is the responsibility of the swimmer or the swimmer's legal guardian to ensure compliance with this requirement. This event and associated time trials are held under the sanction of USA Swimming. It is understood and agreed that USA Swimming shall be free from any liabilities or claims for damages arising by reason of injuries to anyone during the conduct of the event.

All athletes, coaches, and staff expecting to receive a deck pass should be prepared to show proof of current USA Swimming membership. Coaches and staff must meet all requirements for USA Swimming coach membership including successful completion of the background check and APT course.

Information regarding the APT course and the background check will be available at meet check-in and is also online at usaswimming.org/protect. Coaches must provide proof of CPR, First Aid and Safety Training for Swimming Coaches or USA Swimming approved equivalents, and must have successfully passed the required background check and APT Course.

No swimmer will be issued credential without a coach member present. If the home club coach is not planning to attend the event, the swimmer must designate a supervising coach by submitting a completed Swimmer Assignment Form at registration. Arriving at registration with the supervising coach is preferred. However, if a swimmer arrives without a coach, he/she must find a willing coach at the facility to sign the Swimmer Assignment form before a credential can be issued. As per USA Swimming rules, no athlete credentials will be issued without a supervising coach present at the facility.

SWIMS DATABASE & PROOF OF TIMES

Times from the following will be in SWIMS, the national times database. Times in the database are not automatic entries to meets.

- A. USA Swimming Sanctioned competition
- B. USA Swimming Approved competition - Check two weeks before the competition to assure the meet has been approved by the LSC, and prior to the start of the competition, ask the Meet Director for the procedure for getting a time into SWIMS.

USA Swimming Observed swims - Be sure a proper re-request for an Observed Swim is made according to guidelines appearing in 202.8 of the USA Swimming Rule Book and the USA Swimming SWIMS Time Module Policy Manual. Prior to the start of the meet, verify that proper procedures are in place for the Observed swim.

ENTERING OFFICIAL TIMES

Individual Events - All entry times must be made prior to the entry deadline and must be proven prior to the scratch deadline for that event through the SWIMS Database. No swimmer will be permitted to swim without said proof. USA Swimming reserves the right to challenge any submitted time. All scratches must be proven.

RESPONSIBILITY CLAUSE

The coach, swimmer, or swimmer representative who completes a USA Swimming Championship entry through the Online Meet Entry (OME) system attests that all times stated in the entry form are true and correct as achieved qualifying times for each event entered. He/she assumes all responsibility for false or incorrect times, or times which are unacceptable under USA Swimming rules, and shall be assessed a \$100 penalty payable to the Corporation for each such time entered, unless absolved of the fine by USA Swimming or its designee or Board of Review. Additional action or penalty may be taken or levied as deemed appropriate by USA Swimming.

Such penalty shall also be levied against any USA Swimming verification officer who entered such a false or incorrect time(s) into the SWIMS Database.

Appeal of fines are to be made to USA Swimming or its designee and/or Board of Review. Any appeal of the decision shall be in accordance with the provisions of USA Swimming's Operational Policies.

AUTOMATIC PROVEN TIMES

If a time for a swimmer is visible in the public search feature on the USA Swimming website (Times/Time Standards) and it was swum in the appropriate qualifying period, it is considered a proven official time. Entry times not proven by the scratch deadline for the event will be considered as false or incorrect times and are subject to action under provisions of the USA Swimming Rules and Regulations.

Times from all college dual, invitational and conference meets should be in the database. If a qualifying time was swum at a USA Swimming observed high school meet, verify that it is in the database before using it for entry. Contact the LSC Times Official in the LSC where the meet was held if there are missing times or questions about whether the meet was observed. Times from all major international championships will be automatically entered in the database. Times from any other meets in which National time standards were met must be requested from the SWIMS Time Official in the LSC in which the meet was held. LSC officials may charge a fee for data entry requested after the meet ends.

Note: Relay lead offs and/or intermediate split times must be requested from the SWIMS Time official in the LSC where the time was achieved. Requesting SWIMS data entry won't enter a swimmer into a competition nor place your club on the USA Swimming mailing list.

Safe Sport

The USA Swimming Safe Sport program is USA Swimming's comprehensive abuse prevention program dedicated to creating a healthy and positive environment free from abuse for all its members. Components of the program include, but are not limited to, providing education and training, enforcing policies (such as the Minor Athlete Abuse Prevention Policy), rules and best practice guidelines, promoting healthy boundaries and mandatory reporting of violations.

The Minor Athlete Abuse Prevention Policy (usaswimming.org/maapp) prohibits Adult Participants (as defined) from having one-on-one interactions with minor athletes which are not within an observable and interruptible distance from another adult. Adult Participants are required to abide by this policy in full during this meet.

Pursuant to USA Swimming Rules and Regulations and federal law, it is every member's responsibility to immediately (i.e., within 24 hours) report any incident of child abuse, including physical or sexual abuse, to law enforcement and the U.S. Center for SafeSport. Reporting must occur when an individual has firsthand knowledge of misconduct or where specific and credible information has been received from a victim or knowledgeable third party. A report to the U.S. Center for SafeSport may be made via telephone at 833-5US-SAFE (833-587-7233) or online at uscenterforsafesport.org/report-a-concern. Various state laws may also require reporting to law enforcement or to a designated child protection agency. For information on how to report other alleged violations, including without limitation, the USA Swimming Code of Conduct and the Minor Athlete Abuse Prevention Policy, please visit usaswimming.org/report.

All athletes age 18, or who turn 18 during the meet, must complete Athlete Protection Training in order to be a USA Swimming registered member in good standing by the first day of the meet. A member not in good standing will be prohibited from participating in the competition until such time as all membership requirements are completed. Times achieved by an athlete who turns age 18 on or during the meet, who competes in this USA Swimming sanctioned event without completing this membership requirement, will NOT count for qualification or recognition. This includes participation as a member of a relay. The requirement to complete Athlete Protection Training is an annual requirement. USA Swimming membership will be affected if a non-athlete member or adult athlete member does not renew Athlete Protection Training annually.

Each club is responsible for the conduct of its swimmers. Any person who, in the opinion of the Meet Referee, Meet Director or Meet Marshall, is harmful to others or to other's property may be required to leave the competition. No swimmer will be allowed access to the pool deck without a coach member present. If the home club coach is not planning to attend event, swimmer must designate a supervising coach. Arriving with fellow LSC club/coach is preferred, however if a swimmer arrives without a coach, he/she must find a willing coach at the facility to sign a supervision form before a credential can be issued.

Any swimmer entered in the meet must be certified by a USA Swimming member-coach as being proficient in performing a racing start. It is the responsibility of the swimmer or the swimmer's legal guardian to ensure compliance with this requirement.

Deck changes are prohibited.

During the entire meet, use of audio or visual recording devices, including a cell phone, are not permitted behind the starting blocks, while athletes are in vulnerable positions, and are not permitted in changing areas, rest rooms or locker rooms.

Use of audio or visual recording devices, including a cell phone, is not permitted in changing areas, restrooms or locker rooms.

Operation of a drone, or any other flying apparatus, is prohibited over the venue (pools, athlete/coach areas, spectator areas and open ceiling locker rooms) any time athletes, coaches, officials and/or spectators are present.

All U.S. athletes, coaches, and staff expecting to receive a deck pass should be prepared to show proof of current USA Swimming membership via the USA Swimming App. Coaches must meet and have current certifications for all the requirements of coach membership including successfully passing the required background check and APT course.

It is understood and agreed that USA Swimming, the Meet Hosts, Facility Owners, Officials, and the LSCs shall be free from any liabilities or claims for damages arising by reason of injuries to anyone during the conduct of the event.

Doping Control

The 2026 Short Course World Championships Trials is subject to Doping Control. All athletes at this competition are subject to drug testing conducted by the United States Anti-Doping Agency (USADA), WADA, and/or World Aquatics under the In- Competition Testing program. This section is intended to give an overview of the key points relevant to this program and the testing which will be conducted at the competitions governed by this booklet. Athletes should visit usada.org/athletes/antidoping101/ for important information that all athletes, coaches, and their parents must be aware of. Key details from that document are listed below. Athletes should check their medications prior to use and note that some medications may require approval that will take at least 30 days.

What substances are banned?

Per USADA: “As a signatory to the World Anti-Doping Code, USADA tests for substances and methods found on the World Anti-Doping Agency Prohibited List. It’s important that athletes are aware of the substances and methods on the [Prohibited List](#) as an athlete is responsible for any prohibited substance found in their body, regardless of intent. It’s also important to understand that certain substances are prohibited at all times, while others are prohibited only during competition. In some cases, a substance is only prohibited in a certain sport. Use the resources on this tab in conjunction with the next step about medication and the resources available pertaining to medication to determine whether or not a substance is prohibited.” Read the summary of [Modifications for 2026](#).

What about medication?

Per USADA: “Athletes need to be aware of the prohibited status of any medication they are taking, whether it be an over-the-counter or prescription medication. The easiest way to understand your medication is to use USADA’s [Global DRO](#) service, where generic and name brand products, or specific medications, can be searched. Results will yield information including the in-and out-of- competition status, any threshold information, as well as sport specific information for those substances prohibited only in certain sports. Athletes or their support team can also speak to an expert by phone during business hours [8am – 5pm Mountain Time Monday-Friday] by calling Athlete Connect at 719.785.2000.

It’s important to understand that Dietary Supplements are not medication. They are regulated and manufactured differently. For these reasons, USADA is unable to provide guidance on specific dietary supplement products. For more information visit [USADA’s Supplement Connect](#).

Therapeutic Use Exemptions?

Per USADA: “In some situations, an athlete may have an illness or condition that requires the use of medication listed on the World Anti-Doping Agency’s Prohibited List. A Therapeutic Use Exemption or TUE provides permission for an athlete to have a prohibited substance in their body at the time of a drug test. The process for obtaining a TUE is thorough and balances the need to allow athletes access to critical medication while upholding clean athletes’ rights to compete on a clean and level playing field. In some cases, the TUE requirements are different for national-level athletes vs. non-national level athletes. Athletes interested in obtaining a TUE should visit the Therapeutic Use Exemption page, where they can determine if they need a therapeutic use exemption, begin the application process, and find answers to the most frequently asked TUE questions.”

Understand the Sample Collection Process:

Per USADA: “Athletes selected for testing are subject to both blood and urine testing. The processes are designed to be both effective in preserving the integrity of the sample, yet safe and comfortable for the athlete. Understanding the processes as well as an athlete’s rights and responsibilities can help to make them less intimidating. There are additional considerations for minor athletes and disabled athletes. Learn more about the sample collection processes here.” NOTE: Minor athletes should always have a representative with them in doping control.

Per established doping control testing protocol, a Witnessing Chaperone must directly observe an athlete providing a sample. The witnessing chaperone is always someone of the same gender as the athlete. To protect the rights of a minor athlete, someone must observe the witnessing chaperone observing the athlete as they provide a urine sample. That person cannot see the athlete – they can only see the witnessing chaperone watching the athlete. Per USADA's established protocol the athlete has the right to choose who will be in that role. In the event that a coach acts as an Athlete Representative for an athlete of the opposite gender, they may request that someone on USADA's crew observe the witnessing chaperone observing the athlete. Then the coach can be the athlete representative for the rest of the processing of the paperwork.

NCAA doping control rules are different than the rules for this meet. Be sure all athletes have checked their meds with USADA and understand this information.

Doping Control rule for athletes previously eligible for out of competition drug testing: Athletes who were previously eligible for out of competition (no-advance-notice) doping control and officially retired have a 6-month waiting period before they can compete (should they choose to return to competition) and must again be subject to out-of- competition testing during this reinstatement period. The athlete is not permitted to compete in any USA Swimming sanctioned events (local competitions all the way up through National competitions including meets with a dual sanction from Masters and USA Swimming) or World Aquatics sanctioned events. If you have an athlete in this situation, please email smichael@usaswimming.org immediately.
